Protect Your Investment Before, During, and After the Sale

Cross-border real estate requires accuracy and planning. A small oversight, like a missed filing or double reporting, can cost thousands. Our experts prevent that with clear, compliant accounting tailored to U.S. and Canadian owners.

We help you with:

- U.S.–Mexico tax compliance
- Property tax assessments and annual filings
- Mexican tax ID (RFC) registration
- Rental income reporting and deductions
- Capital gains strategy when selling
- Corporate and trust ownership structures

When every number is accurate, your Cabo property becomes a strong, protected investment.
